Hi Dustin,

Great suggestion, we've added it in v5.5 build 1 due Nov 5, 2019

-New: On the Products->Bundles window you can now search for bundles based on the Name, Description, or Notes or a combination of them. It supports Begins With, Contains, Search Query and more search types. Really useful for searching for a Bundle based on a word or words in the notes of the Bundle definition. Also the Description column was added to the grid display.

-New: On the Products->Bundles window you can now resize and re-arrange the columns which will be remembered per user.

Name	Internal Notes	Description
AT		
safe 2 clone	sell this first, gold level	Includes 10 lb. Fire Extinguisher, Reflective
safe 4 clone	safe 4 internal notes	bundle description Includes 5 lb. Fire
Safety Package #12		Includes 5 lb. Fire Extinguisher, Reflective
Safety Package #2		Includes 10 lb. Fire Extinguisher, Reflective
Safety Package #2 CLONEA		Includes 10 lb. Fire Extinguisher, Reflective
